

Mobilis Overview

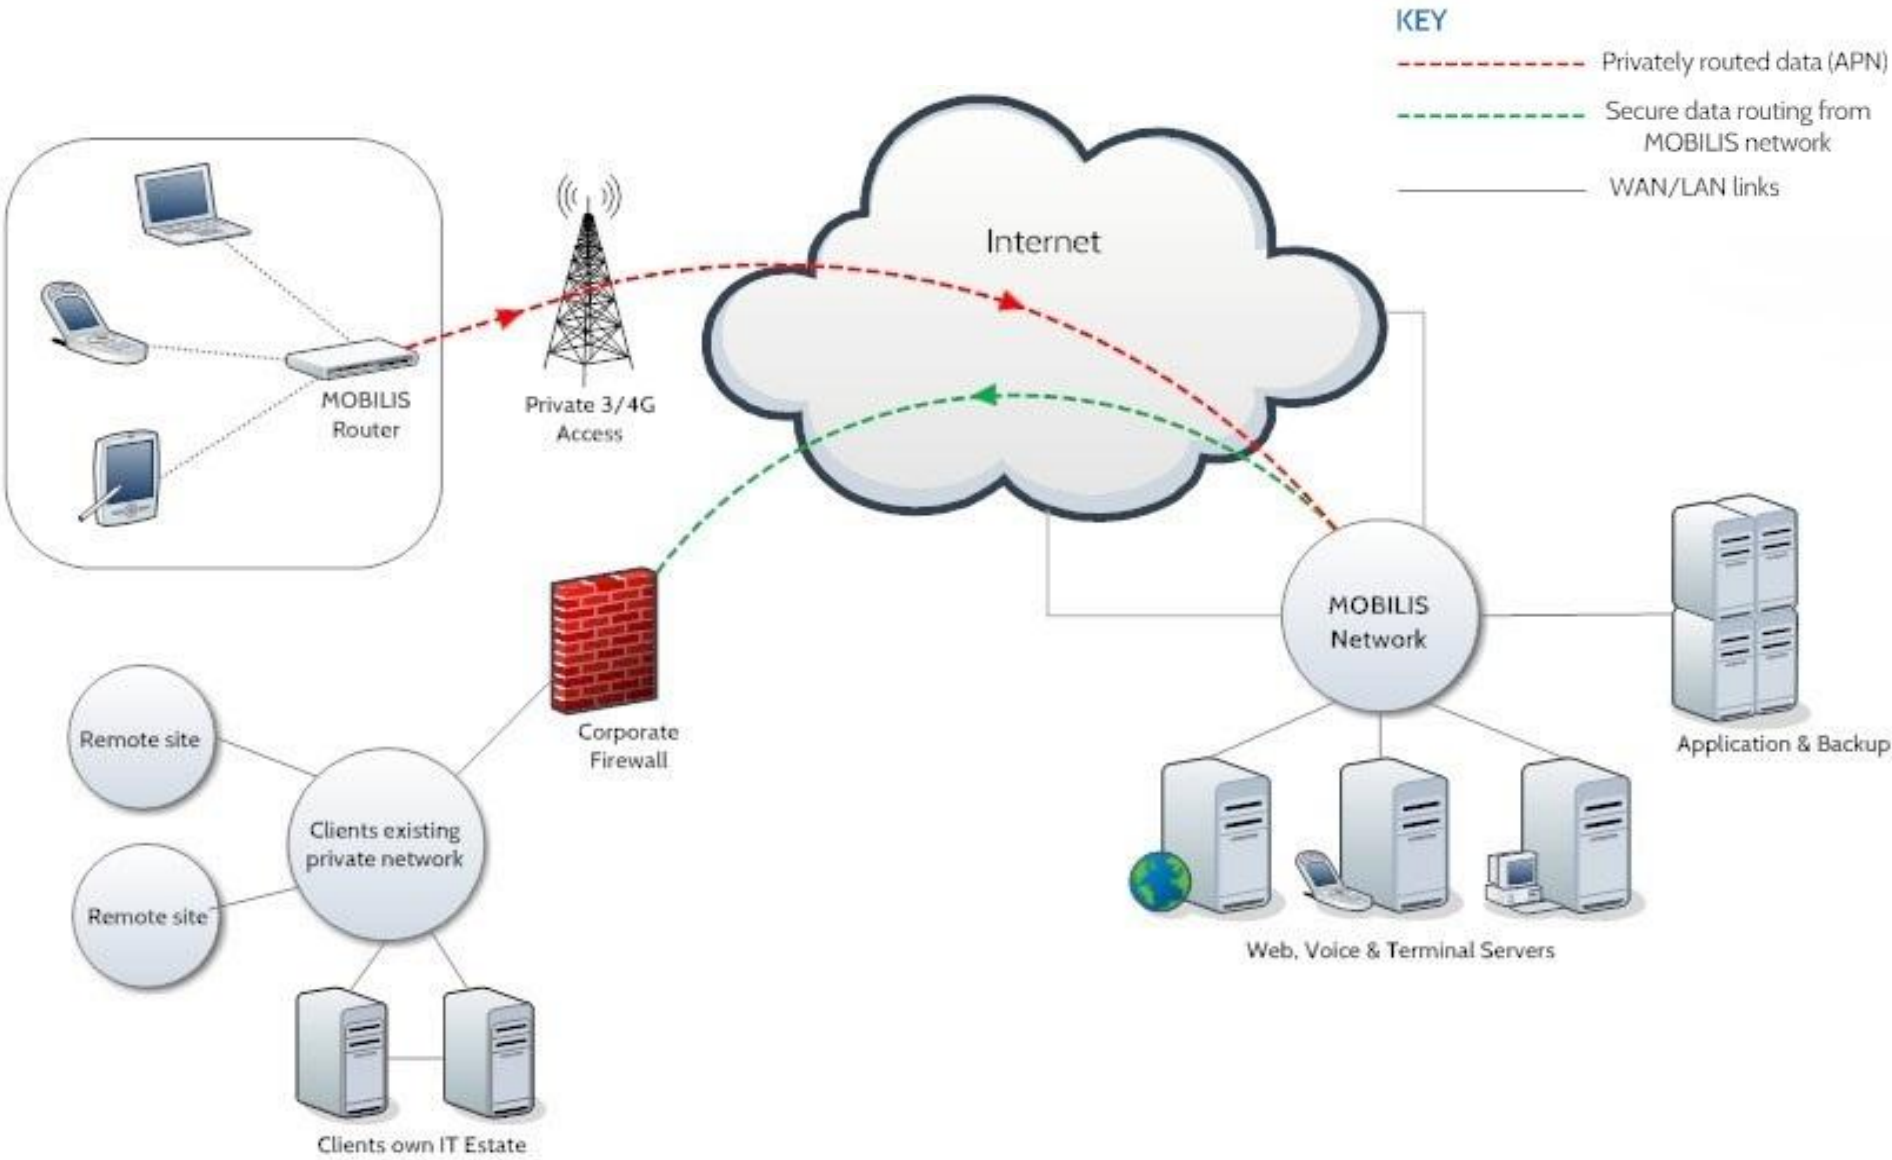

"The Communications Rescue Service"

Instantaneous, secure & reliable links to the internet

The Mobilis solution is fully integrated with leading operators, enabling rapid deployment. We take the best technologies available and blend them into a solution with fixed, clear costs.

- o Rapid deployment & delivery
- o Extensive remote support (private & secure network control)
- o Intelligent infrastructure (real time diagnostic/reporting)
- o Existing network integration

Mobilis Topology

Mobilis as a Service

DEPLOYMENT

Connectivity & site start up can be established within days

CONTROL

Real time auditing of who/what device is logged on, how long they have been logged on for, together with the amount of data transmitted

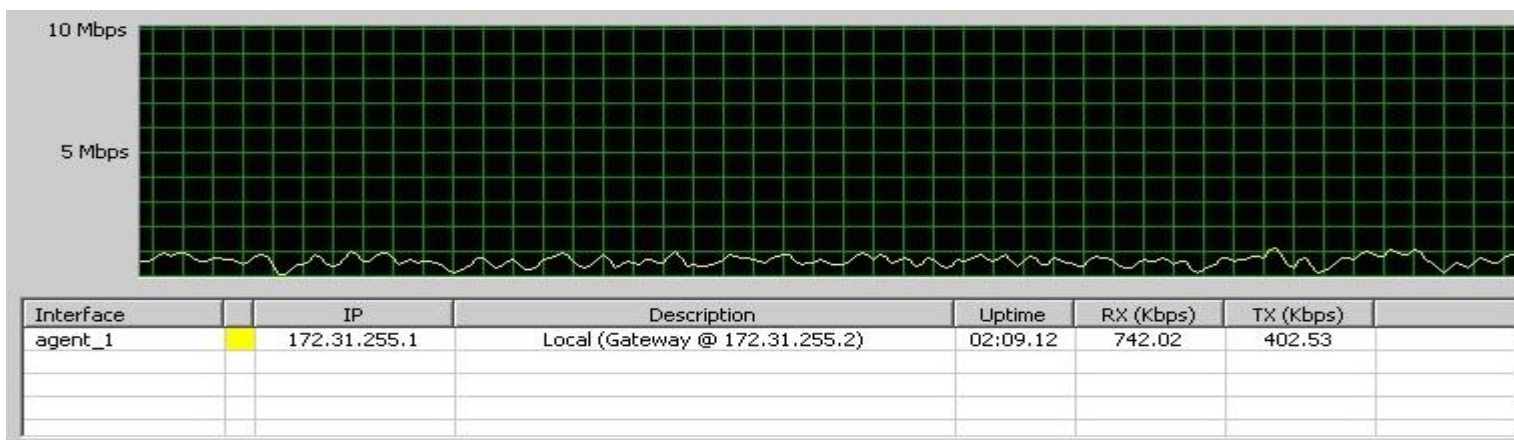

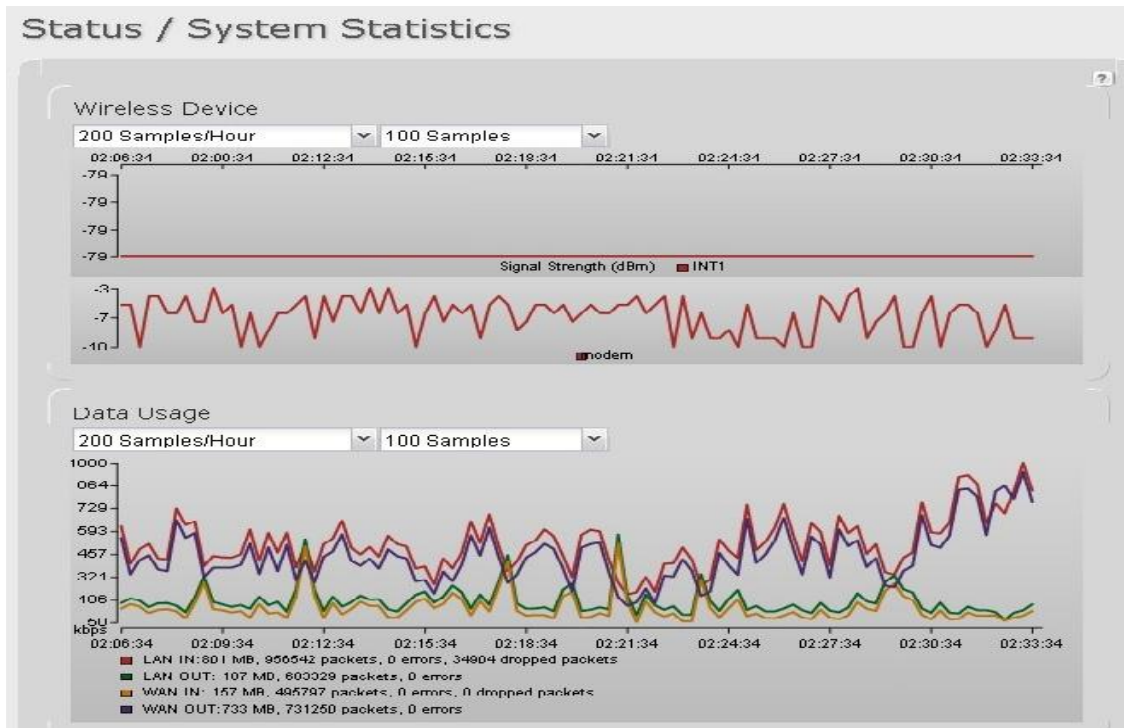

FLEXIBILITY

- *3/4G data charges can be fully tailored to suit*
- *Umbrella & data aggregation plans*
- *Low rental 'dormant' SIM for disaster scenarios*

Mobilis Support

TAILORED SERVICE LEVEL AGREEMENTS

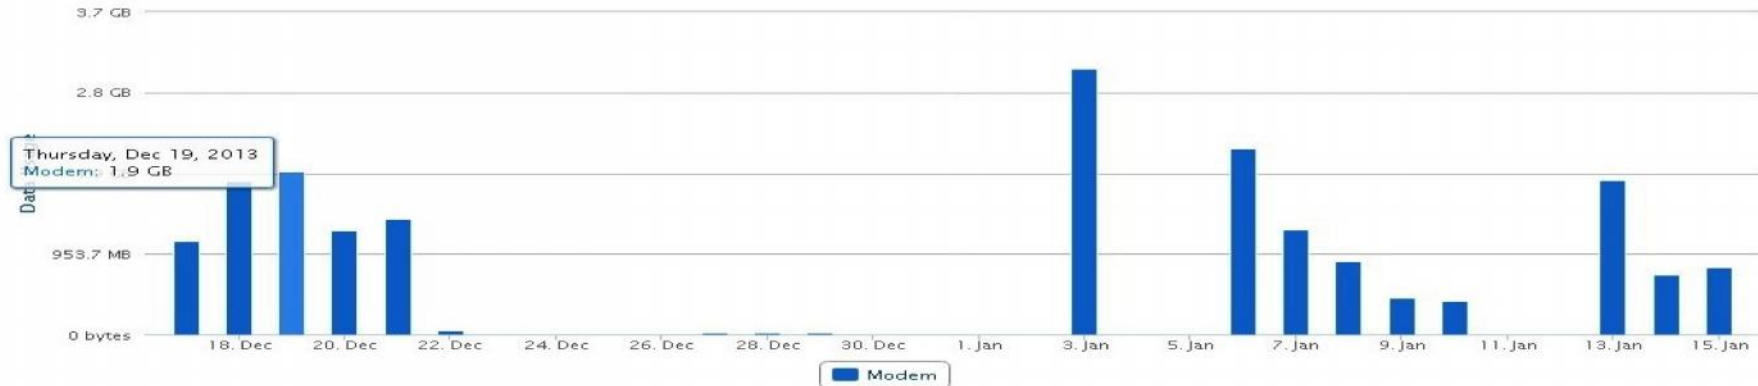

- *Installation*
- *Estate Integration*
- *LIVE Router Management*
- *Monitoring*
- *Tailored Reporting*

Mobilis Data Reporting

Dashboard – Displaying last 30 days

WAN Data Usage by Day

User	Device	Start Time	End Time	Tx Bytes	Rx Bytes
